## Frequently Asked Questions

- **What is a Micro-Internship?** Micro-Internships are short-term, paid, professional assignments that are similar to those given to new hires or interns. They take place year-round, are typically 10-40 hours in duration, and are usually due 1-4 weeks after kickoff.
- **Can Micro-Internships posted on Parker Dewey be unpaid?** No. Unpaid internships are not accessible to students who cannot afford to work for free. Our mission is to provide opportunities to students from all backgrounds, and unpaid experiences go against that mission.
- **Are Micro-Internships available to grad students? Alumni?** Yes to both. Micro-Internships help students and recent graduates gain experience to launch their careers. Once someone has been working in their target field for a year or more, they likely will no longer find Micro-Internships to be of interest.
- **What is the cost to companies wanting to post Micro-Internships on Parker Dewey?** There is no cost to post a Micro-Internship, and the organization determines the cost of the project including the project deliverables and timeline. All projects are fixed-fee and generally equate to \$15-25/hour. Students receive 90% of the payment, while Parker Dewey retains the remaining 10% to cover expenses. The student is paid by Parker Dewey upon completion of the project. Companies are welcome and encouraged to hire their Micro-Intern for longer-term opportunities at no cost.
